

## Whereabouts Statistics for doctoral students at the Department of Chemistry

For 40 years, the German Chemical Society (GDCh) has been collecting statistics on the status of graduates in addition to the number of graduates. The data are anonymously reported to the GDCh by the Department of Chemistry. We offer our support for this.

Name: .....

Research Group: .....

Date Oral Defense: .....

### Course of studies before doctorate:

- Chemistry
- Biochemistry, Molecular Life Sciences
- Food Chemistry
- Pharmacy
- Nanoscience
  
- .....

### Postdoctoral Status:

- Chemical / Pharmaceutical Industry
- Other industry
- Postdoc abroad
- University (habilitation, junior professorship, permanent position)
- Research institute (habilitation, junior professorship, permanent position)
- Postdoc in Germany (university, research institute, industry) [temporary position].
- Public service (not at a university)
- freelance work
- second or postgraduate degree program
- not employed

**If your status changes by the end of the year, please let us know for statistical purposes.**
