

# 3<sup>rd</sup> Workshop on Functional Materials Biophysical Properties of Glycolipids and Related Problemes

Geesthacht / Hamburg, April 7-8, 2000

---

## General Information:

This workshop seeks to bring together scientists from a wide range of scientific fields who have an interest in research on biophysical properties of glycolipids and related subjects. The purpose of the meeting is to promote the interaction of scientists working with different techniques such as electron microscopy, NMR techniques, neutron and X-ray scattering, chemical analysis, and modelling and to provide a forum for discussion of further scientific programs.

**Attention: the workshop is located at two different places! Bus transport between Hamburg and Geesthacht will be organized.**

## Scientific Program:

The workshop is planned for approximately 20 lecturing participants and for an open audience. The time for the contributions is limited to lectures of 30 or 15 minutes. An intensive discussion is welcome. If necessary we will also provide the infrastructure for a poster session.

## **Registration and Abstract Preparation:**

We kindly ask interested participants to prepare an abstract according to the [instructions](#) and send it to GKSS until Feb. 29, 2000. Electronic versions are welcome (Word-Docs. or \*.rtf-format, send to [elvira.tretau@gkss.de](mailto:elvira.tretau@gkss.de)). Deadline for registration is Feb. 29, too. Please give us a short note whether you will travel by car.

## **Social Program:**

We will provide information on touristic activities in Hamburg.

## **Lodging:**

For hotel information and direct booking please contact: [www.hamburg-tourism.de/hamburg-buchen/hotels.html](http://www.hamburg-tourism.de/hamburg-buchen/hotels.html)  
We recommend a hotel in the 'City' or near the main station.
