## Grading of a lab course report

| Degree program                    |                    |
|-----------------------------------|--------------------|
| Student's name:                   | Student ID number: |
| Module examination CHE:           |                    |
| Date of submission:               |                    |
| Examiner:                         |                    |
| Grade (incl. numceric indication) |                    |
|                                   |                    |
|                                   |                    |
| Signature Examiner                | Date               |
|                                   |                    |
| Comment:                          |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |
|                                   |                    |

Grading according to §15 (1) examination regulations of the Faculty of Mathematics, Informatics and Natural Sciences:

an outstanding achievement 1 = excellent

2 = goodan achievement that exceeds the average requirements considerably

3 = satisfactoryan achievement that fulfils average requirements

4 = sufficient an achievement that fulfils the requirements despite flaws
5 = unsatisfactory an achievement that does not fulfil requirements due to major flaws
Grades can be decreases or increased by 0,3 to create intermediate grades. The grades 0,7; 4,3; 4,7 and 5,3 are excluded.
